AirGear® PRO

NIOSH • 42 CFR 84 • N95

D-150

UNVALVED N95

NIOSH • ≥99% FILTERED • UNVALVED

≥99% filtration.* Safe around others.

A **NIOSH-approved N95** with a molded cup and **no exhalation valve** — ~8 mmH_2O breathing resistance both ways for comfortable wear. The unvalved design suits **source-control** and around-others use where valved masks aren't allowed. Metal-free, with a secure molded seal.

AVAILABLE IN THE UAE — NOW

≥99% FILTRATION

Filters ≥99% of non-oil particulates (as tested).

UNVALVED

Source-control safe — filters both ways, protecting others.

~8 mmH_2O

Low breathing resistance, inhale and exhale.

SECURE SEAL

Molded cup + foam cushion, no metal clip.

METAL-FREE

No metal nose clip or staples in construction.

PROTECTION RATINGS

N95	≥95% non-oil particulate filtration (NIOSH minimum)
NIOSH	42 CFR Part 84 — N95 classification, unvalved
≥99%	Filtration efficiency as tested (NaCl, 0.3µm)
UNVALVED	Source-control safe — suitable around others
METAL-FREE	No metal nose clip or staples

SPECIFICATIONS

MODEL	**AirGearPro D-150**
CLASS	**N95 particulate, unvalved**
FILTRATION	**≥99% as tested · N95 ≥95%**
VALVE	**None (unvalved)**
FILTER MEDIA	**Meltblown PP · 38 gsm**
HEAD STRAPS	**Ultrasonic-welded twin band**
COLOUR	**White**
SIZING	**One size (adult)**
SHELF LIFE	**5 years**
PACK	**Box of 10 · Box of 20**
