Bayonet-fit filters — select the protection combination to suit your application.

FEATURES

- **Durability:** the body is made of highly durable materials — a strong ABS frame and polycarbonate visor add impact and chemical resistance, with an air-tight facepiece seal for longevity.
- **Lightweight & comfortable:** 5-point adjustable straps make it quick to put on and take off; comfortable on the skin and suitable for every face type and size.
- **View & communication:** wide field of vision with a low-profile design and scratch-resistant anti-fog visor, offering a best-in-class 76° viewing angle while working.
